## GRAND JURY PROBE CALLED INTO USE

Alleged Combines Controlling Meat, Milk and Coal to Be Investigated.

### LAND CASE COMES UP AGAIN

Remanded Trial of Kettenbach Timber Fraud Case Begins Feb. 15 Before Judge Dietrich.

(Special Correspondence.)

BOISE, Feb. 3.—One of the most important grand jury probes ever conducted in the northwestern country is now on in this city under the direction of the district court. Matters of great importance to the general public including an investigation into the alleged meat, milk and coal trusts of this city, which are thought to be existing in violation of the anti-trust law of the state. Other matters to be considered are the McClintock murder case, wherein Lyle Roe was bound over to the district court, and the Chinese assault case in which three members of the Louie family figure as defendants, and the "Tuscarora Bill" Heaton assault case, wherein the manager of the county poor farm was badly cut up with a table knife.

Judge Wood has announced that the high price of living is a subject that must be given thorough consideration and this subject is the main object of consideration, looking to the extermination of the alleged local combinations formed in restraint of trade. The state will also take a hand in the matter if it is found necessary. Said Judge Wood: "I am willing and ready to do my part in determining whether the laws have been violated, and if so, in bringing the guilty to justice. The investigation was very properly started through County Attorney McCarthy. We cannot take part under such circumstances unless our assistance is asked for, or it should be shown that a prosecutor was not doing his duty."

The personnel of the grand jury is as follows: O. B. Johnson, Herman E. Grover, Timothy Regan, W. W. Goble, Earl D. Painter, Charles Stein, Fred Brooks, Thomas Moran, Charles Story, Albert Oster, Andrew E. Frost, George M. Pettit, John Rader, W. T. Booth, J. H. Oakes and Charles Coffin. John Rader was appointed to the position of grand juror in place of Judge Wood.

JURY FOR TIMBER CASES. For the trial of the most important district court trial jury of 50 talesmen has been drawn upon an order from Judge F. S. Dietrich. The jurors are summoned to appear in court at 9 o'clock Tuesday morning, Feb. 15, the date for trial of the Kettenbach timber fraud cases, when Kettenbach, Kester and Dwyer will be arraigned and tried for conspiracy to defraud the government out of valuable timber lands located along the Clearwater river.

The defendants will be tried on the two counts of the indictment returned against them five years ago. There were five counts in the indictment. They were tried and acquitted on three of these. The other two were appealed by the defendants to the United States circuit court of appeals and remanded back to the district court for retrial. It is upon these two counts that the defendants will be arraigned. Claiming that prejudice exists in the north, where the alleged fraudulent actions were committed, the defendants petitioned for a change of venue from Moscow to Boise, which was granted.

## Health and Beauty Talks

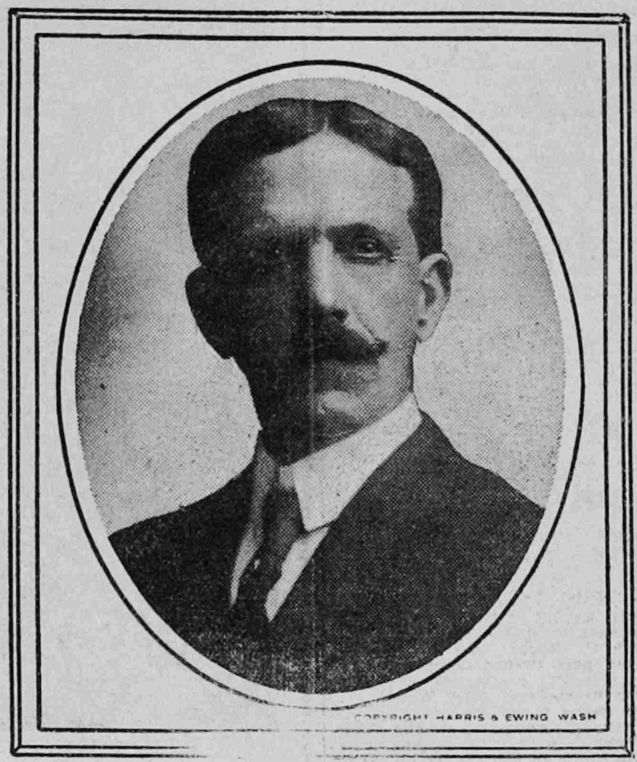

BY MRS. MAE MARTIN.

E. R. S.: If your hair is splitting at the ends and becoming prematurely gray, it is a sure sign of neglect. What you need is a good, nourishing quinine tonic for your hair. Dissolve one ounce of quinine in one-half pint of water. Rub this well into your scalp twice a week and it will put new life and color into your hair in a short time. I found this quinine tonic excellent for removing dandruff, irritation of the scalp and stopping falling hair. You will find it splendid to use during the winter months, as it keeps the scalp ready to take the hair glossy and will prove very refreshing to the hair and scalp.

Bertha J.: You can't expect to have a nice, rosy complexion as long as you feel listless and have a poor appetite. At this time of the year you ought to be feeling splendid and looking your best. I strongly recommend a good system tonic for you. The one I always take is made by dissolving one-half teaspoonful of quinine in one-half pint of water. Add one ounce of cod liver oil and one ounce of cod liver oil. This will make a full quart. Take a tablespoonful of this good, old-fashioned tonic before each meal and before retiring. It will tone up your system and do away with that tired feeling, putting color and life into your face. It is fine for clearing a yellow complexion, removing pimples and other skin eruptions.

Mary E. A.: I have received so many requests for a reliable, greatest complexion cream that will be entirely beneficial and not encourage growth of hair on the face. I will repeat the formula: Mix one ounce of Umozin with one-half pint of cold water and add two teaspoonfuls of glycerine. Stir and let stand for four or so. I have never found anything to equal Umozin jelly as an aid to beauty. It is excellent for reducing the size of large pores in the face, for removing freckles, tan, wrinkles and blackheads. It cleans the skin from all dirt and makes it soft and velvety. Use very little soap on your face, as it dries out the skin too much. This cream will cleanse the skin much better than soap.

E. A. W.: I feel sorry for you. There is a person as fat as yourself must make one feel miserable to think everyone notices your extra weight. You can easily get rid

ELLISON D. SMITH.

United States senator from South Carolina.

Postal Inspector Roy E. Nelson has unearthed a systematic robbery of the United States mails in Boise postoffice, which is believed to have been going on for several weeks past. The most startling fact in connection with the discovery is that a lady 10 years of age was at the head of the scheme. The boy, Willie Conklin, when apprehended disclosed the names of several other boys who were his associates in the crime, some of whom were even younger than himself. Their plan was to hang around the main corridor of the postoffice and watch for careless people who often leave their keys in their lock boxes after taking their mail therefrom. After such persons had left the building the boys would steal the key, noting at the time the name of the box. Securing thus a few keys, the boys would regularly visit the postoffice and take from the boxes, for which they had keys, all the mail matter which they might contain, from which they would select such letters and parcels as had the appearance of containing valuables or money and would take them to some secret place and tear them open.

Formal complaint will be made against the boys by Inspector Nelson to United States Commissioner Halverson. The severest penalty that can be imposed upon the lads for this offense is to sentence them to the reform school.

### DRIVEN TO SHAME.

Local associated charity workers have unearthed an appalling condition existing in this city. "There are many mothers," says the Rev. Christian, "supporting their children in Boise today through immorality, who are not immoral at heart. Of this I am convinced." Mr. Christian said: "Adjutant Hawk and I visited two women, one of whom we had heard were not fit mothers for their children, and on talking with one of them she said: 'I admit all that you say, but tell me, one and three years old, how can I alone in the world, support these two children in any other way? I have them and they must be fed.' The other said: 'I will do the best that I can to care for my children in a respectable way, but if I fail I will have to do the other thing and you know what that is.'"

As a solution of this problem the erection of a day nursery for children is advocated, where mothers who have to work can leave their children in good care and kind hands.

A serious accident occurred at the corner of Broadway and Main streets, where a horse-drawn carriage was struck by a trolley car, resulting in the death of a child.

A serious accident occurred at the corner of Broadway and Main streets, where a horse-drawn carriage was struck by a trolley car, resulting in the death of a child.

City railway and the Boise Valley railroad, on which the normal schedule was resumed less than a week ago. Last Saturday the repairs on the break in the canal were completed, but owing to the thousands of tons of ice which had formed in the channel the company has been unable to operate the plant to its full capacity. A chute had been constructed just above the intake at the power plant to carry off the ice and as a result of the great flow surging against it, it gave way compelling the company to shut down operations at once.

### PIONEER DEAD.

There died in this city on Tuesday another of Idaho's foremost pioneers, in the person of George Adams, trail blazer, minister, law maker and educator, at the age of 71 years. He gradually declined and passed away from old age and attendant infirmities. Mr. Adams was born in Indiana and came across the plains to Idaho in 1862. He filled the pulpit in the Methodist church for some time, but later took up the practice of law. The funeral will take place here. He is survived by three daughters, seven grandchildren and three great-grandchildren.

### CONDUCTOR HOLDEN BURIED AT FRANKLIN

(Special Correspondence.) FRANKLIN, Jan. 29.—On Wednesday last funeral services were held over the remains of Conductor James Holden who was accidentally killed in the Pocatello yards on Jan. 24, and whose body was shipped to this place that it might be buried here, the resting place of his father and mother and other members of the family. James Holden resided here during his boyhood days and until a few years ago when he obtained employment on the O. S. L. He moved with his family to the Pocatello yards and began work at the time of the fatality which occurred on Jan. 24. He was crossing the tracks in the yard in order to take out the freight train which was run from Pocatello to Montpelier. In doing so he was in some unaccountable way run over and killed supposedly by a switch engine. He was not found until about an hour later.

The funeral services were conducted by Bishop S. C. Parkinson. The speakers were Mr. Hughes, railway agent at Montpelier, who had charge of the body while in transit. He was also a neighbor of the departed and spoke of him as being an honest, sober, industrious man and a very agreeable neighbor and strictly reliable in all his transactions. Elders James Callan of Dayton, J. J. Hill and Bishop S. C. Parkinson all intimate acquaintances, spoke of him as a kind father and loving husband, a faithful Latter-day Saint, true to his God no matter where he might be. The choir rendered choice selections. The floral contributions were numerous and beautiful. He leaves a wife and six children and a large circle of friends.

### TO DELIVER WATER FROM KINGS HILL DITCH

(Special Correspondence.) HAMMETT, Feb. 1.—It has been definitely announced here today by officers of the Kings Hill Extension irrigation company, limited, that water will be delivered through canals covering the 8,000 acres under the extension ditch in time for this year's irrigation season as promised, and it is further stated that a vigorous effort will be made to deliver water on all of the land. In order to deliver water for the lands under the reservoir it is necessary to complete in a very short time

The Latter-day Saints' Church has a strong following and a substantial house of worship. The ward is organized by Elder S. Sunday school and are holding services in the public school building until other quarters are obtained.

The bishopric of this ward gave Bishop Ralph, former bishop, a generous surprise a few evenings ago, by loading themselves and numerous friends into "bobs" and driving out to his home at Landing. After a most enjoyable time the visitors left for their homes arriving there rather early in the morning.

Mrs. Marietta Allen after a short

illness with an attack of rheumatism is once more able to be around.

A dramatic club has been organized which expects to put on a thrilling play on St. Patrick's day or March 17. This may be changed however, that being the anniversary of the Woman's Relief society.

The continuous snow storms and cold are causing a great deal of anxiety among the stockmen, as hay is scarce and the prices high.

Joe Byington has purchased and taken possession of the old Cy Tyler farm, the former G. A. Perry place on the bench.

Harry C. Boley is visiting relatives in American Fork, Utah. Joe Woods who has been on the desert west of Minnedoka is home on a visit. He is the son of Mr. Nephli Woods who is on a mission to the Northeastern States.

### EIGHTEEN BELOW ZERO RECORD AT MONTPELIER

(Special Correspondence.)

MONTPELIER, Feb. 3.—From the indications of last week one would be led to imagine spring was near at hand and that people need not go to California to enjoy delightful weather but these pleasant dreams were however of short duration for on Monday a sudden atmospheric change occurred and one of the severest storms in years visited the city. Not much snow fell but what little fell was accompanied by a fierce cold wind until it was almost impossible to face it. Last night the thermometer dropped to 18 below zero. Sheep men from the winter ranges report their flocks not doing well as the heavy thaw at the first of the year melted the snow to a depth of about three inches which it turned off so very cold, freezing a sheet of ice all over the range and making it next to impossible for the flocks to get any feed at all. Considerable loss has been sustained and unless relief of some kind can be had ere long the loss will be very heavy. Feed of all kinds is very high, hay being quoted at \$15 a ton and other products in proportion.

### TOWN OF ROCKLAND ENJOYING A BOOM

(Special Correspondence.)

ROCKLAND, Jan. 31.—When the hamlet at the Forks was established some 30 or 40 years ago, the lone settler, Guadalupe Valdez coming from the deserts of Nevada and placing his home at the Forks, never dreamed that from his small and semi-barbarous cabin as a beginning a hustling community would be the ultimate result during his life time, but such is a fact and today the valley is now preparing itself to mark the epoch of rapid development and taking place in the richest of the section in the state. The title of the Forks has given way and the name of Rockland by which the new town is known, will be long before a synonym in the state. The town is now a fact and a prosperous and enterprising. A year ago the townsite company organized, purchased a block of land, platted it off into lots and streets and began the work of building the village. Today there is a bank ready for occupancy. A large cellar excavated ready for the foundation walls upon which will be erected the new town. The town is now a fact and a prosperous and enterprising.
